

Kitty Murray Lane Road Construction and Intersection Improvements.

City of Hamilton

van der Woerd Assoc. was retained by Redeemer University College to complete the extension of Kitty Murray Lane.

This project included extension of an existing road with the installation of storm, sanitary sewers and watermain. Garner Rd. E. was widened to accommodate the increased traffic flow and the intersection was improved.

The project included a Round-a-bout at the west entrance to Redeemer University College and services along that entrance into the property.

The client partnered with the City of Hamilton for this project.

Services Performed:

- Engineering Design for Watermains, Sanitary Sewers, Storm Drainage and Road Construction
- Stormwater Design
- Preparation of Development Agreement Schedules
- Contract Preparation, Tender and Administration
- Construction Inspection
- Survey Layout
- Cost Sharing Administration with the City of Hamilton

Location:

Kitty Murray Lane from Rymal Road to Stone Hedge Drive

Client

Redeemer University College
